

golden days

Love me everyday
Love me from deep inside.
We can find a way
You could stay by my side.
I would make each day
Become so light and quiet.
Then we can be together on and on.

Every evening I can't stand the pain
Every morning It's always the same.
I'm trying to sing to forget I'm all alone.
I'll be thinking of you baby on and on.

Miss you, miss you
I can't live this nightmare anymore
I would look for your soul
Until I reach the end of the road.
Cause I can't live without you here on and on.

Miss you, miss you
I can't live this nightmare anymore
I would look for your soul
Until I reach the end of the road.
Cause I can't live this on and on.

It's getting cold here
Isn't it cold out there?
I refuse to believe that you don't really care.
All that I'm wishing for you
All that I'm feeling for you
I'll be sending you this letter on and on.
